Technical Skills: Firebase, Postman, Git, Responsive Web Design, CSS3, HTML5, RESTful APIs, MongoDB, Express.js, Node.js, JavaScript, React, Redux
Soft Skills: Time Management, Problem Solving, Problem-solving, Effective Communication

PROJECTS

Medilab | *HTML5, CSS3, Responsive Web Design, JavaScript*

- 🚀 Deployed Link : https://gorgeous-crisp-3c0e40.netlify.app/
- Github Repo : https://github.com/sandeepMasai/medilab
- Developed a responsive medical laboratory website template using HTML5, CSS3, and Bootstrap.
- Created multiple pages including Home, About Us, Services, and Contact to showcase lab information and offerings.
- Implemented a user-friendly layout with modern design elements for an improved browsing experience.
- I've added a functional contact form using basic JavaScript for user inquiries and communication.

Alwar-mall E-Com | *firbase, React, Tailwind CSS for styling, React Router for navigation, React Hook Form for form handling, Lucide React for icons, Vite for build tooling*

- 🚀 Deployed Link : https://zippy-horse-df7653.netlify.app/
- Github Repo : https://github.com/sandeepMasai/Alwar_mall_App
- Developed a modern web application for Alwar Mall using React, Vite, and Redux to manage state efficiently.
- Implemented user authentication and account management features with Firebase Authentication.
- Designed and integrated product category pages, shopping cart functionality, and order management workflows.
- Ensured a fully responsive UI using Tailwind CSS for optimal user experience on both desktop and mobile devices.
