Attention to Detail

Problem Solving

Sandeep

Frontend Developer(React)

Professional Summary

Dynamic and detail-oriented Frontend Developer with expertise in React.js and proficiency in HTML, CSS, and JavaScript. Strong problem-solving and communication skills. Skilled in utilizing Generative AI and rapidly adapting to new tech stacks to enhance user interfaces and optimize application performance.

Projects

Alwar-mall E-Com   Live Demo Link   Github Repo Link

React   Redux   Responsive Web Design   firbase

- Developed a modern web application with React, Vite, Redux, Firebase, and Tailwind CSS for an interactive shopping experience.
- Implemented user authentication using Firebase, allowing users to sign up, log in, and manage their accounts securely.
- Created a responsive design fully compatible with both mobile and desktop views for seamless user experiences.
- Integrated shopping cart functionality where users can add products, modify quantities, and view total cost efficiently.
- Managed order details and delivery status effectively using Redux for a better user interface interaction.

Medilab   Live Demo Link   Github Repo Link

HTML5   CSS3   Responsive Web Design

JavaScript

- Collaborated with designers to create visually appealing user interfaces for a medical laboratory service website.
- Developed responsive layouts using HTML, CSS, and Bootstrap to ensure optimal performance across various devices.
- Implemented a modern, user-friendly website template including Home, About Us, Services, and Contact pages.
- Optimized the website for speed and scalability, enhancing user experience.
- Conducted thorough testing and debugging to ensure reliability and stability across different browsers.
